of reading improvement.

# WHAT WILL WE DO?

Everything with Math

## Math Skills

Fact Fluency

Place Value

Patterns/Shapes

Addition/Subtraction

Mental Math

Fractions

Money

Word Problems

Measurement

Telling Time

We guarantee 4-6 months  
of math improvement.

# LEARNING LOSS IN CHILDREN

- Amplify Education Inc. found children in 1st and 2nd grade experienced the most dramatic drops in reading scores due to Covid 19
- Forbes, Oct. 2020, reveals students experience about 3 months of learning loss in the summer.
- McKinsey and Company estimates the average K-12 student could lose \$61,000-\$81,000 in a lifetime of earnings, due to the learning loss of the Covid 19 era.

# GIFTED READERS

- *The Journal of Balanced Literacy Research and Instruction, Vol. 3 [2015], Iss. 1, Art. 5 suggest that teachers, unintentionally, ignore higher level readers and leave them to their own to be successful in the classroom.*
- RR will provide a rigorous curriculum to develop critical thinking and elevated learning experiences for the gifted reader.
- Lisa Conrad has started a community involving Dr. Lynette Breedlove (Executive Director of Gatton Academy), Dr. Lynne Kenney (The Family Coach) to discuss how to challenge our gifted students. Click link to see some thoughts on what Remarkable Readers will do to challenge your reader:

# LEARNING LOSS IN CHILDREN

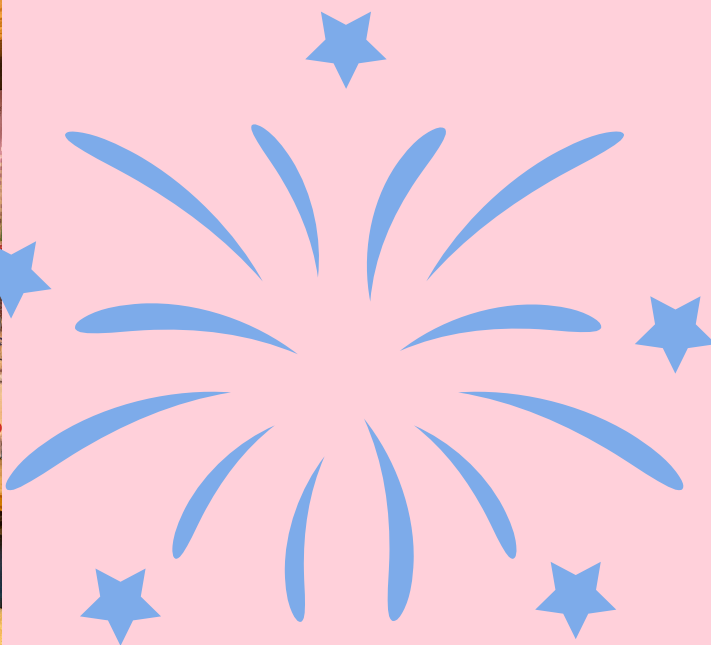

- The Nation's Report Card, released its 2022 findings and noticed that our students math scores had the largest decline since 2005!
- From a Harvard study, "Lower NAEP math scores are, correlated with higher likelihoods of incarceration, teen pregnancy and the use of food-stamp benefits and lower odds of owning a home, marriage and full-time employment. In other words, they are a good predictor of overall success or misery."
- McKinsey and Company estimates the average K-12 student could lose \$61,000-\$81,000 in a lifetime of earnings, due to the learning loss of the Covid 19 era.

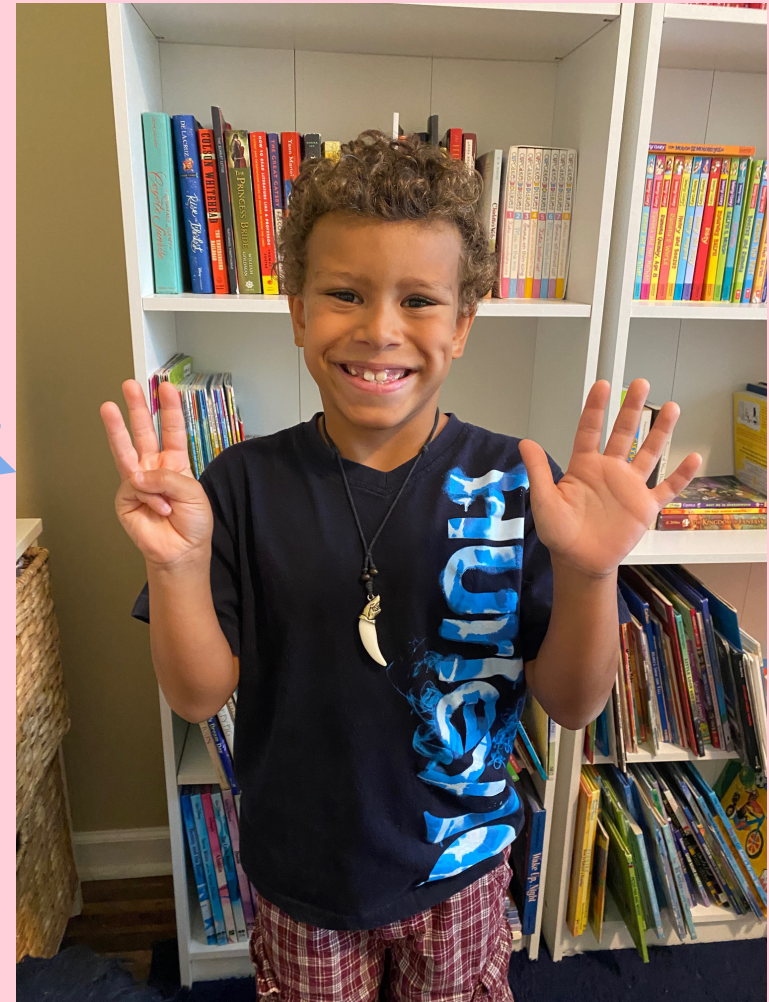

# Success Stories

This camper improved 1.4 in Reading Growth! That is 1 full school year and four months! He is also diagnosed with Autism and was below grade level at the beginning of the summer! He will start the school year ahead of his peers!

This camper improved 9 months in Reading Growth! She has started to choose books and wants to read on her own. Her writing and comprehension skills have really improved! She has found the joy of reading!

This camper improved 8 months in Reading Growth! He was visiting grandparents for the summer and joined the RR program! He applied phonics sounds, sight words and comprehension skills to all of the books he is now reading!

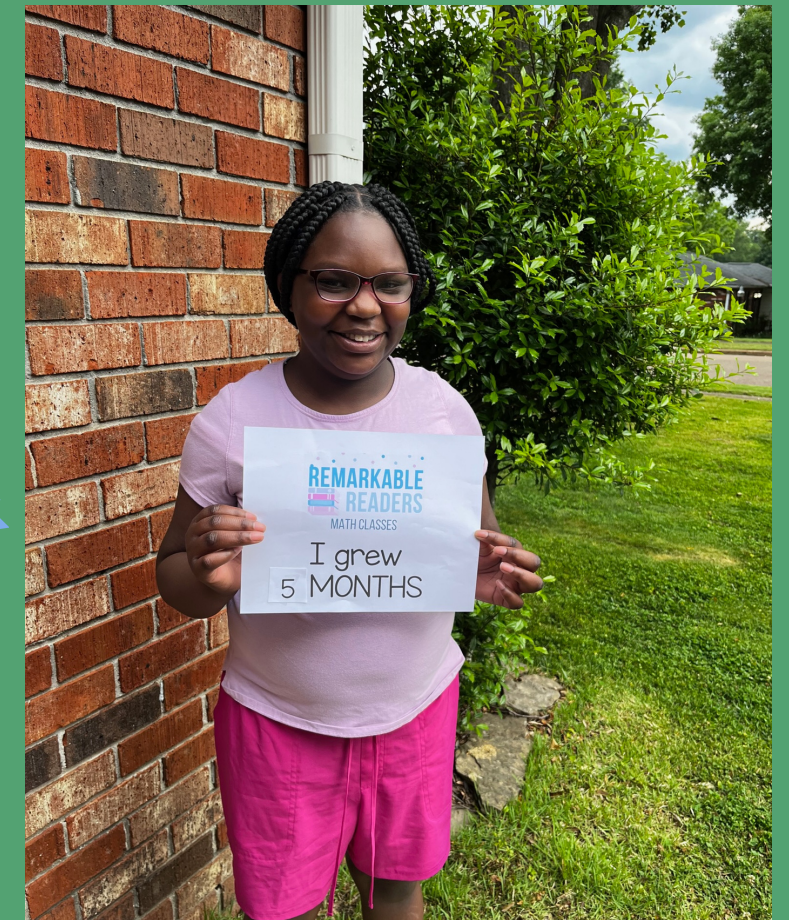

# Success Stories

This camper improved 1.3 in math growth! That is 1 year and 3 months in just 8 weeks! He has started to learn there are different ways to get to the correct answer with his math skills. He is beginning his school year on grade level!!

This camper improved 1.5 in math growth! That is 1 full school year and five months! He was below grade level at the beginning of the summer! He will start the school year ahead of his peers!

We are thrilled to share that this sweet camper has made tremendous strides in math over the last 8 weeks. She grew 5 months in her math knowledge! She was able to relearn math skills that had not yet been mastered, and apply newly learned math skills to new content. In fact, she now enjoys math!
